Wallonia-Brussels: a welcoming region for sporting excellence.

Wallonia and Brussels feature a wide range of modern, top-level facilities, providing everything a national or international top-level athlete needs.

The Paris 2024 Olympic and Paralympic Games, taking place just a stone's throw away, is a unique opportunity for us to raise the profile of our region and its facilities.

Everyone knows that the right training conditions are essential for performing at a high level. High-quality facilities certainly helps as well.

This catalogue was created from a shared desire to showcase 28 sites located across Wallonia and Brussels that are suitable for top-level sports.

Our sports facilities have been highly rated beyond our borders for many years. Foreign delegations regularly visit for training courses.

- 
- 
- And rightly so, because training in Wallonia and Brussels means:
- Facilities that meet the technical requirements of top-level sport
 - Camps to acclimatise to Northern European conditions
 - A central location in Europe and excellent transportation connections
 - Access to local support staff
 - A range of cultural and gastronomic treasures to explore
 - Optimal conditions to prepare for major sporting events, in complete confidence

We invite the champions of today and tomorrow to learn about these facilities now and take advantage of the optimal training conditions they provide!

Elio DI RUPO
